

## No more Dead Kids

(not in Palestine, Israel – or here)

Send a message to the huge Dialysis companies Fresenius and DaVita (HQ in Denver) – sign the petition (QR code on 2<sup>nd</sup> flyer)

– ask about what more you can do

(this could be a common cause – Law Enforcement gets kidney disease too)

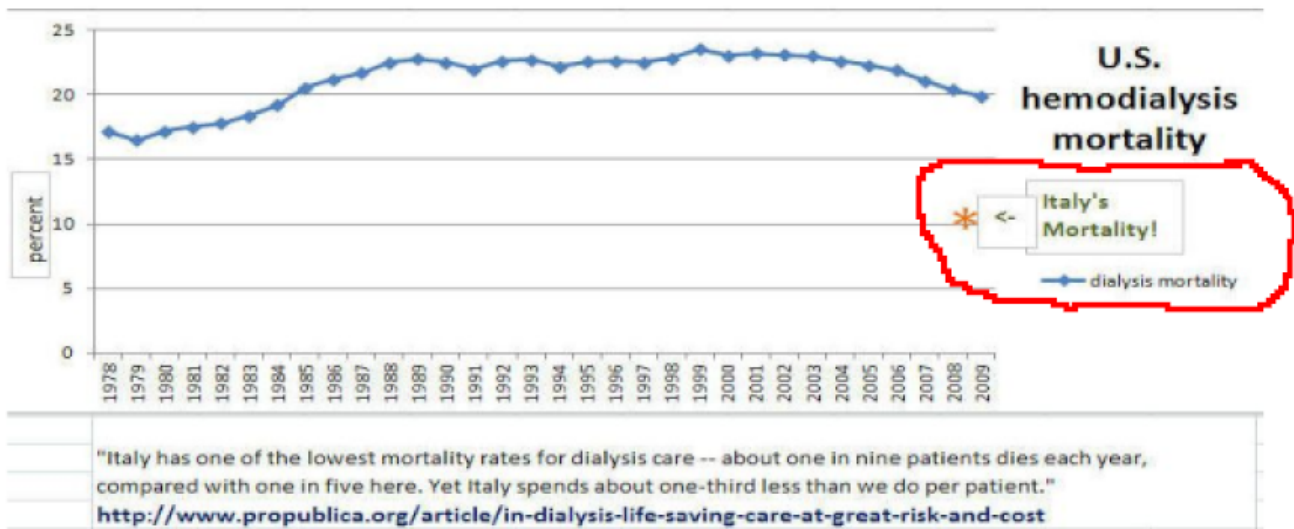

## History:

\*Kidney Dialysis has had the highest mortality rate in the industrialized world!

\*\**Dialysis is unique in experiencing a **worsening mortality**. I believe the major reason for the miserable results of chronic dialysis is that we dialyze in an increasingly unphysiologic fashion*” Dr. Carl Kjellstrand, winner of a lifetime achievement award in dialysis

\*\*The US large for-profit dialysis companies haven’t been able to keep up with a poorer country like Italy when it comes to mortality and Italy spends 1/3 less!

!!!From 2013 to 2019 mortality plateaued, still around 17%!!!

There have been comparisons between for-profits and non-profits with the non-profits coming out on top. However after some of us watching this for more than two decades, many of us feel the more important thing is to break DaVita up – and maybe care co-ops should be looked into!

More info: [www.dialysisethics2.org/](http://www.dialysisethics2.org/) (see QR codes in 2<sup>nd</sup> flyer)

\*\*\*for a quick intro: google ‘comedian John Oliver and DaVita’\*\*\*
